TDEC... Memphis HOPE... City of Memphis... CD Council... HUD

Federal-State-Local partnerships have had major impacts in our community. The Obama Administration has charged several agencies with spearheading Federal collaborative initiatives that will help communities and regions develop their capacity for a sustainable future. For West Tennessee to take advantage of these new initiatives, we must build capacity within our region. This conference will provide participants with the tools they need to be successful.

September 22, 2010
